

Special Focus Groups

The Enterprise Europe Network was launched in 2008 by the European Commission to promote collaboration between innovative companies across Europe. The Network is made up of over 550 partner organization across 44 countries, including the member states.

A number of Sector Groups have been established, which are dedicated platforms from the Network, working closely with organisations with specialized capabilities and expertise to help make the most of business opportunities across Europe.

We have established special focus groups in the following sectors:

- Automotive Transport Logistics
- Biotech Pharma & Cosmetics
- Chemical
- Creative Industries
- Environment
- Food & Agro Industries
- Healthcare
- ICT Industries & Services
- Intelligent Energy
- Maritime Industries & Services
- Materials
- Nano & Microtechnology
- Services and Retail
- Space & Aerospace
- Sustainable Construction
- Textile
- Tourism & Cultural Heritage

Through the Sector Groups you we can provide you with the following:

- Regular updates on new policies and legislation
- Advice on funding opportunities available within EU research programmes
- Communicate your feedback regarding European Union policies to EU policy makers
- Identify potential partners for R&D collaboration
- Assistance in applying for EU grants
- Find innovative new technologies
- Promote your innovative technologies through our extensive database of technology profiles
- Find innovative technology solutions to complement your product development
- Arrange one-to-one meetings with potential partners at Brokerage events
- Highlight important dates for your diary

For more information on the Sector Groups please contact Gillian Kears-Fricker.
